

APPROACH CONE PERFORMANCE

ROUTINE

This game can take place either on the course, the driving range, or even indoors using a Trackman / Golf Simulator.

The purpose of the game is to simply be on the correct side of the flag as often as possible when approaching the green.

To begin the game you will have 6 shots that fall within 3 different distances (75-125yards, 125-175 yards, 175+yards) ideally changing targets on every shot. Will hit a total of 18 shots or play 18 holes and keep track of your score based on the scoring below.

ROUTINE

1. Any shot left on the 'skinny side' of the hole is an automatic double bogey.
2. Any shot left within 15 feet of the hole on the fat side of the flag is a birdie.
3. Any shot between 15 and 35 feet on the fat side of the hole is a par.
4. Any shot greater than 35 feet (or a missed green) on the fat side of the hole is a bogey
