

NO 3 PUTTS Performance

This game focuses on long distance putting! More specifically your ability to two putt from long range. The goal is to make as many 2 putts in a row from outside 30ft without making a 3 putt.

If you do happen to make a 3 putt the counter goes back to 0! To set up the game you simply need one ball, one putter and a putting green.

Keep choosing random putts longer than 30 ft and 2 putt before choosing a different putt. If you happen to hole one count it as 2.

To complete the game you have to either count your score until 1 hour is up, or reach 30 2 putts in a row.
