

MASTER THE BAG

Skill Development

Ideally we will have multiple pins in order to complete this game, however if this is not possible you can simply use an alignment stick, headcover or a different color ball as a target to aim for.

We will complete this game from close range (approximately 5-10 yards from the green) and you will ideally have 5 different targets and 2 different hitting areas. You will hit 1 ball to each target, from each hitting area (total of 10 shots).

The goal is to hit 10 shots with every club in your bag, starting with your most lofted club, and finishing with a long iron or hybrid.

Measure your total footage from the hole with each club and compare to see what club ends up the closest to the hole
