

# MAX SPEED DRIVING

## Skill Development

---

The purpose of this game is to test out your MAX driving speed and the shots that come along with it. Before hitting your first shot of the max speed test make sure you are warmed up.

During this test you will hit 10 shots in total. If you have a launch monitor we will measure your average speed and distance, if not we will simply measure the directional result.

To complete the task simply hit 10 shots and fill in the chart below

# MAX SPEED DRIVING
