

# BREAD & BUTTER

## Performance

---

This is a great way to test your basic chip shots and ability to convert up and downs from close to the green.

To start with place 10 balls around the outskirts of the green (between 1m and 3m from the edge). These shots should all be designed to give you a relatively “easy” chip shot towards a flag.

You will need 3 clubs for this game (54/56 degree wedge, 9 iron & a putter).

The objective is to move from ball to ball attempting to get each one up and down. If you make an up and down you move to the next ball, however if you miss an up and down you move back to the previous up and down.

To complete the game you must successfully up and down all 10 balls, 5 of which you must use your 54/56 degree wedge, and the other 5 you must use a 9 iron.

---

Score can be measured in 2 ways

How long it takes you to complete all 10 shots

Or

How many times you had to go back 1 place after a failed up and down.
