

## 100 FT Performance

---

The goal of this game is to hole a total of 100 ft of putts. You choose the length of each putt and you can mix it up however you want.

The only rule is you cannot hit the same putt twice.

---

Your score will be how many putts it takes to cross the 100ft of putts holed mark.

Every putt you hit counts towards your score, and every putt you hole also counts towards your footage.
