

## **LONG GAME**

This is a simple game that involves picturing the shot that you wish to execute, calling it and then executing it to the best of your ability. Following the scorecard below choose a club and a target that falls within the club range mentioned. Then choose a target, and finally choose the ball flight you wish to hit. For example shot 4 you may choose a driver as the club and select two targets to drive in between as if it were a fairway. Then you will choose your shot, lets say in this case a draw, and then finally you will execute the shot.

## **SCORE**

There will be 4 points up for grab on each shot. If the shape of the shot is correct then you will receive a point, if the strike is good then then you will receive a point, then if the result is good you will also receive a point. If you tick all 3 boxes on any given shot then you will receive 4 points. Hit 20 shots in total and add up your score at the end
