

Draw the Flight Skill Development

The purpose of this game is to create awareness about your chosen ball flight (whether that is a draw or a fade). We want to create awareness about the start line, curve and finishing position of the golf ball.

To complete this game you will simply need a piece of paper, a pen, a 7 iron and some golf balls.

To begin you must decide on what shot shape you want to hit, and also have a target in mind. On the piece of paper mark the starting point using an x and finishing point using a small flag. You will then proceed to hit 5 shots and draw the ball flight on the paper after each shot.

After all 5 balls have been hit and the ball flights are drawn simply assess how similar each one looks relative to where you wanted the ball to start and what shape you wanted to hit. Are they consistent? Do they have the right shape? Are they finishing within a reasonable distance of the target?

Repeat this drill 4 times using a 7 iron and if you are happy with the results change the club and try another.
